

Biography of Steve Schmauch  
steve.schmauch@yahoo.com

I purchased my first car, a 1931 Coupe, in 1963 and have driven it over 100,000 miles, as it was my primary car, then my secondary car until the 1990's. It is currently undergoing a complete restoration, again.

I completed a 1931 Standard Fordor from swap meet parts and pieces, which has received Blue Ribbon awards at the 1984 and 2004 Portland National Meets.

I have just recently completed a full restoration on a 1929 Coupe that should have been recycled as parts only. My future restoration project is a nice original 1931 Deluxe Fordor.

I am continually learning about the fine details of parts changes throughout production. My current research interests are in the areas of shock absorbers, wheels, and steering gears. I have enjoyed being able to give something back to this hobby through 6 years of participation on the Judging Standards committee as a member, and currently as Chairman.
