Picture is from our recent trip from Ft. Worth, TX to Canada with a stop at the Model A Museum opening. Our trip was 8 days, 2,900 miles, 9 states, 2 countries, and we survived the EF-5 Moore, OK tornado (we were driving through Moore while it was on the ground). On our driving days, we drove an average of 700+ miles a day, which is a very long time in a Model A. The first picture is of my car, a 1930 Town Sedan, at the Gilmore Shell Station. The second picture is of my car and Ace Polson's '31 coupe in front of Edsel Ford's mansion. Yes, I'm 20 and I love my Model A.
